Sir,

I am directed to submit for the information of the Government of India, the Annual Report on the Administration of the Province of Coorg for the year 1891--92.

I have the honor to be,
Sir,
Your most obedient servant,

ORDER OF THE LIEUTENANT GOVERNOR

REPORT

ON THE

ADMINISTRATION OF COORG

FOR THE YEAR 1891—92.

PART I.

GENERAL SUMMARY.

The population of the province according to the census of 1891 was 1,73,055.

2. The total *revenue came to Rs. 9,21,856-14-8 against Rs. 8,15,988-15-10 last year. The total expenditure came to Rs. 6,38,117—7—10 against Rs. 5,67,685—3—1 in 1890—91, leaving a net surplus of Rs. 2,83,759—6—10 against Rs. 2,48,160 in the previous year.

3. The increase in receipts was chiefly under the heads land revenue (70,280—4—8), forest (25,675—10—8) and abkari (23,154—0—5).

4. The increase in land revenue is chiefly due to the collection of arrears and in forests to the collection of arrears of cardamom revenue and to the good prices obtained for sandalwood. Under abkari, it is due to the higher rate obtained for the contract for the manufacture and sale of arrack.

5. The increase in expenditure is chiefly due to the cost of the revenue and forest surveys.

6. The survey made good progress during the year. The skeleton survey of 136 villages, having an area of 698·23 square miles and the cadastral survey of 188 villages having an area of 584 square miles, was completed at the cost of Rs. 58,122.

7. The forest survey was also energetically pushed on and 379 square miles including 74,170 acres of cardamom malles, very difficult work, was completed at a cost of Rs. 9,970—8—5. The ghat forest boundary settlement was satisfactorily completed by Mr. Framjee Dinshaw, the settlement officer.

8. The year's harvest was good. The rice crop fair and the coffee crop above the average, being 5,733 tons against only 2,129½ tons in 1890—91 which was a bad year; the average is 3,557. The cardamom crop was fair but the prices continued so bad that most of the cardamom growers are now ruined.

9. Criminal Justice, Civil Justice, Police, Registration, Municipalities, Stamps, Excise, Forests, Jails, Income Tax, Sanitation and Education having been separately reported upon call for no further remark here.

10. The revenue is the highest collected in the province during the last 10 years, and but for the extra expenditure caused by the surveys, the surplus would have been the highest also.

11. There is a falling off in the revenue collected as coffee revenue as compared with that of the previous year of Rs. 11,639—7—4; Rs. 4,598—5—0 in estates actually resigned or sold and resumed to government, the balance being in assessment on differences found by survey which in 1890—91 came to Rs. 14,352—15—10 against only Rs. 4,282—10—5 this year.

12. The estates resumed were chiefly cardamom malles held on coffee assessment—cardamoms now fetching too low a price to pay.

II. ADMINISTRATION OF THE LAND.

SURVEYS.

5. *Revenue Survey.*—The survey was carried on during the year in 5 taluks, of which Kiggatnad was completed and Yedenalknad and Nanjarajpatna nearly so. The period from June to October (monsoon months) was occupied in plotting the village boundary traverses on 16″ scale for the ensuing field season, in computing areas of fields surveyed, and inking village plans, &c.

6. The field work throughout the year was of a very difficult nature particularly in the Yedenalknad taluk. Work was also delayed in tracing out the boundaries of estates on which, though they had been previously surveyed, the boundary stones had disappeared.

7. The strength of the establishment employed on field work was as follows:—

Months.	No. of Supervisors.	No. of Amins.			
		Revenue Survey.	Land Record.	Probationers.	Total.
April 1891	13	62	25	37	124
May ,, ...	12	69	25	31	125

February ,, ...	11	91	15	1	107
March ,, ...	11	89	14	4	107

8. The average strength during the 8 months in the field was 11 supervisors and 102 amins, but one or two of the former were occasionally employed on miscellaneous duties such as special surveys, &c., whilst the full number of the latter was not always available owing to sickness, leave, &c.

9. *Skeleton Survey.*—The survey of 137 villages comprising an area of 698·02 square miles, of which 42·79 square miles were by theodolite and 655·23 square miles by plane table, was completed during the year.

10. *Cadastral Survey.*—The area surveyed was 584 square miles comprising 32,043 fields in 188 villages. There were 34 villages pending completion at the close of the year.

11. The amount of check measurements taken by officers and supervisors was 1,756 linear miles on an area of 584 square miles surveyed. This gives an average of 3 linear miles tested per square mile of work done in the field.

12. Three thousand, three hundred and ninety-five permanent station marks were set up. Of these only 11 were erected by government at a cost of Rs. 6—14—0 the rest having been placed by the land owners.

13. The surveyors and amins were employed in the office during the recess in plotting and computation of traverses and other miscellaneous work such as preparation of village and estate maps for photozincography, inking village maps, fair-copying land registers, &c. The out-turn of work done by them as well as the computers and draughtsmen was :—

14. The total area surveyed up to the end of the year was:—

	Villages	Area in Square Miles.
Skeleton survey	492	1,325
Cadastral " (Inclusive of 10 forests comprising an area of 25 square miles) .	441	896

15. The cost of survey operations during the year was Rs. 58,622—7—6 inclusive of Rs. 7,797—2—2 debited to the Land Record Establishment. This gives a rate of Rs. 100—6—1 per square mile of completed survey, viz. 584 square miles or annas 2-6 per acre. The rates per square mile for skeleton and cadastral surveys respectively are calculated at Rs. 20—15—11 and Rs. 75—4—7 per square mile.

16. A sum of Rs. 155—11—8 was realized by the sale of maps and on account of value of instruments lost, and has been credited to government.

SETTLEMENT AND WASTE LANDS.

17. Three hundred and thirty and a half acres of waste lands were sold during the year. The amount realized was Rs. 15,255—10—0 inclusive of the value of timber credited to "Forests." The average rate per acre was Rs. 46—2—6 including value of timber and Rs. 21—8—0 excluding it, as compared with Rs. 49—1—11 and Rs. 21—14—0 respectively during 1890—91.

18. The value of lands sold for building purposes amounted to Rs. 142-14-0 against Rs. 983—7—11 in the year previous. The decrease is due to fewer sites having been sold during the year.

19. The realizations on account of value of land unauthorizedly cultivated amounted during the year to Rs. 3,050—13—10.

20. *Land Revenue.*—The land revenue demand under all heads amounted to Rs. 3,70,368—6—1 being a net decrease of Rs. 1,036—8—11 over that of the previous year. The decrease was entirely in coffee; in other cultivation there was an increase of Rs. 532—9—0. The details are exhibited in the following table :—

21. The decrease under jamma is due to the transfer of lands to sagu tenure—the jamma having been confiscated on alienation.

22. The increase under sagu is due to alienated jamma lands being assessed at sagu rates and to certain waste lands newly taken up having become liable to full rate of assessment during the year.

23. The decrease under coffee is due to resignations of land abandoned as unfit for coffee cultivation.

75. The average duration of suits disposed of was 66 days in contested and 31 days in uncontested suits as compared with 72 and 28 days respectively in the previous year.

76. There were 1,561 miscellaneous applications for disposal, of which 1,480 were disposed of during the year.

77. *Execution Cases.*—The number of execution applications was 4,611 against 3,803 in the previous year, of which 3,971 were disposed of leaving 640 cases pending at the close of the year. Of those disposed of, 828 were satisfied in full, 615 in part, 2,514 were wholly infructuous and 14 transferred to other Courts outside the province.

78. The amounts realized in execution of decrees were Rs. 1,23,083—12—2.

79. *Appeals.*—There were 141 appeals for disposal including 13 pending from last year. Of these 134 were disposed of as follows :—

1st Assistant Commissioner's Court ..	.. 67
District Judge's Court	.. 67

leaving 7 cases pending at the close of the year viz., 3 in the former Court and 4 in the latter.

80. The appeals were disposed of as follows :—

Decisions confirmed under section 551		6
Dismissed for default		2
Contested.	Confirmed	91
	Modified	8
	Reversed	23
	Remanded	4

81. The average duration of appeals in the Disdrict Judge's Court was 44 against 38 in last year. The duration in the 1st Assistant Commissioner's Court was 30 days as contrasted with 20 days in 1890.

REGISTRATION.

82. The number of documents of all descriptions registered during the year was 2,109.

83. There is an increase of 332 and 249 documents in Books No. I, III and IV respectively, when compared with that of the previous year. The particulars are as follows :—

	1890—91.	1891—92.
Sale of immoveable property	560	613
Mortgage of property	915	856
Leases	26	17
Affecting moveable property	235	484
Other registrations	89	139
Total.....	1,825	2,109

84. The increase relating to immoveable property is due to a rush made to register documents concerning the sale or mortgage of janma lands before 1st July and 1st August, respectively, after which dates the sale or mortgage of such lands involved their forfeiture.

85. The increase from fees including penalties was Rs. 7,947—8—0 as compared with Rs. 7,619—14—5 in the previous year.

86. The value of property involved in registration was as follows :—

Moveable property	Rs.	2,06,689	10	1
Immoveable property	„	12,25,395	7	2

87. The increase under the head moveable property was chiefly due to the good coffee and rice crops and the high prices prevailing which caused great activity in the coffee and rice trade.

88. The average value of each transaction both in moveable and immoveable properties fell from Rs. 822 and 807 to Rs. 427 and 755 respectively.

89. The time occupied in completing the registration averaged 1 day and 8 hours against 1 day and 10 hours in 1890—91.

90. The registering officers refused registration in 31 cases. In 10 cases appeals were preferred to the Registrar, and the appellants succeeded in 7 cases.

91. The receipts for the year amounted to Rs. 7,947—8—0 and the expenditure to Rs. 3,775—8—1.

92. The percentage of expenditure to income being thus 47·48 to 27·61 in the previous year.

MUNICIPALITY.

93. *Merkara Municipality.*—The total demand for 1891—92 including Rs. 10,324—5—8 outstanding at the close of the last year, amounted to Rs. 24,496—2—11; of which Rs. 19,056—9—10, were collected and Rs. 1,570-4-4 remitted as irrecoverable. The outstandings on the 1st of April 1892, were Rs. 3,869—4—9 against Rs. 10,324—5—8 on the 1st April 1891; of this sum, Rs. 2,966—6—4 have since been collected.

94. The total expenditure during the year amounted to Rs. 12,634—11—3, exclusive of Rs. 194—6—1 withdrawn, with the Chief Commissioner's sanction, from the sale proceeds of building sites deposited in the Savings Bank, to meet the preliminary charges of the water-supply project.

95. The sanitary condition of the town has been improved by the uprooting of the dense growth of lanthana within municipal limits which the Civil Surgeon had reported to be prejudicial to the public health.

96. The plans and estimates for an improved water supply were prepared and submitted to government. Mr. Rai Bahadur C. Somiah very generously contributed Rs. 15,000 towards this work. Mrs. Ganapathy, widow of the late Mr. K. Ganapathy, Assistant Commissioner, has promised Rs. 2,000 and the towns-people Rs. 7,000 making in all Rs. 24,000, a tangible proof of the interest taken by the residents in the scheme.

97. *Virajendrapet Municipality.*—The total income during the year was Rs. 12,751—15—8 or Rs. 2,257—8—0 in excess of that of the previous year. The

total expenditure was Rs. 10,527—14—11. The cash balance at the end of the year was Rs. 8,497—2—5.

98. *Minor Municipalities.*—The following statement shows the financial state of the municipalities during the year :—

Name of Municipality.	Receipt for 1891—92.			Expenditure for 1891—92.			Cash balance on 31st March 1892.		
Fraserpet	1,165	15	5	756	10	7	2,213	5	0
Somvarpet	1,670	1	5	1,052	11	2	3,499	3	11
Kodlipet	906	14	6	1,049	3	3	1,090	10	10
Total.....	3,742	15	4	2,858	9	0	6,803	3	9

99. *Fraserpet Municipality.*—Provision was made for Rs. 1,000 in this year's budget for the establishment of a dispensary.

100. *Somvarpet Municipality.*—The establishment of a much needed dispensary was sanctioned by government with effect from 1st April 1892. Sowcar Mr. Chick Basappa Shetty, a wealthy merchant of the town, contributed Rs. 2,075 for the erection of a dispensary building; and in recognition of this act of liberality, the Chief Commissioner has sanctioned the dispensary being called after Mr. Chick Basappa Shetty's late father, Doddamané Chickkanna Shetty.

101. Mr. Doddamané Thammanna Shetty promised a handsome donation of Rs. 3,839 (since paid) to improve the water supply of Somvarpet by repairing the Anekere tank for which estimates are being prepared.

102. *Kodlipet Municipality.*—At the request of the committee, the Vaccination Act was introduced into this town. Steps were taken to sink the well, built last year by the D. P. W. in which the water supply was found to be insufficient, deeper.

103. The working of the municipalities was more satisfactory than in the previous year. The Honorary Vice Presidents, Mr. D'Vaz in Merkara and Mr. Devappa Naiker in Virajendrapet, whose services are given entirely gratuitously deserve special commendation for the careful supervision they have exercised in their respective towns, over municipal matters.

MILITARY.

104. *Coorg and Mysore Rifles.*—The strength of the corps was 235 as compared with 247 in the previous year.

105. A camp of exercise was held at Merkara from 28th March to 6th April 1892. Sergeant W. B. Green won the Presidency medal for the year.

106. The distribution of the corps was as follows :—

IV. PRODUCTION AND DISTRIBUTION.

AGRICULTURE.

108. *Wet Lands.*—The extent of land under rice cultivation is returned as 73,891 acres as compared with 74,093 acres in the previous year.

109. *Dry Lands.*—The area under dry and garden crops was 1,509 acres against 1,493 acres in 1890—91.

110. *Coffee.*—The area of land under coffee shows a decrease of 1,669 acres owing to relinquishments of lands found unsuited for its cultivation. The total area of coffee land is 79,669 acres against 81,338 acres in 1890—91.

111. The area of assessed coffee land held by Europeans and Native owners respectively, is as follows :—

	No	Acres.
European estates	391	32,323
Native do	6,207	46,887
Total.....	6,598	79,210
Bane land cultivated but not yet assessed		459
Total.....		79,669

112. *Labor.*—There was no improvement in the supply of labor from Mysore. The coolies who came were later than usual in coming and their number was smaller. Fortunately labor from Malabar and South Canara was plentiful and Tamil coolies also came up in some numbers. The planters, however, prefer the Mysore coolies as field laborers and how to secure a steady supply of this labor is a question now engaging the consideration of the Association.

113. *Live Stock.*—The mortality among cattle was 7,228 against 5,211 in 1890—91 or an increase of 27·90 per cent chiefly caused by murrain and foot and mouth diseases.

WEATHER AND CROP.

114. The rainfall registered during the year under report is as follows :—

	Inches.	Cents.
At Merkara	117	44
„ Somvarpet	75	37
„ Anandapur (South Coorg)	68	28
„ Fraserpet	33	54
On the Western Ghat (Dunkeld estate) ..	170	·09

115. The coffee crop during the year was a good one being 5,733 tons or 2,405 tons more than the average for the previous 5 years. Good prices were realized both locally and in the European markets. The rice crop was also good except in some parts of Kiggatnad taluk where the cultivation suffered for want of timely rain.

HORTICULTURE.

116. There has been no improvement in the price of cardamom. It is evident that with the high rate of wages which has to be paid for labor in these out of the way jungles, no profit can be made at the low prices now obtainable, by growing cardamom. It is simply a matter of time for the cultivation being abandoned. In the meantime the ruinous low prices of this produce, the chief crop in Tavunad and Padinalknad Nads, is causing, I regret to say, considerable distress amongst the Coorgs living there.

FORESTS.

117. *Area.*—The area of the Reserved Forests have, in the annual returns, been considerably altered. This, however, is only a temporary change and is due to the Chief Commissioner having ruled that what were formerly known as "Reserved" Forests had not really been legally constituted such and were therefore, until settlement of rights and proper demarcation, to be considered "Protected" Forests. This necessitated the transfer from Reserved to "Protected" Forests of those forests in which the procedure laid down in Chapter II of the Indian Forest Act had not been completed at the end of the year 1891—92. The classification of the Forests at that date stood as follows:—

	Acres
Reserved Forests	72,764
Forest in which procedure according to Chapter II, Indian Forest Act, has not been completed and temporarily classed as "Protected" ...	85,847
Ghât Forests	1,94,460
Paisaris, Urudves, &c, really "Protected" Forests	1,94,504
Total.....	5,47,575

During the year under report 470 acres were excluded from the area of government forest (all from the Paisaris) as sold under waste land rules, encroached upon or given as building sites. Under the above mentioned circumstances, no comparison with the area of Reserved Forests at close of 1890—91 is possible.

118. *Boundaries.*—During the year 330½ miles of old boundary line were cleared at a cost of Rs. 1,515—5—11 which includes the widening of some of the lines to a clear breadth of 40 feet. 406 pairs of pits were dug on the boundary lines and 862 numbered stones planted between the pairs of pits including those dug last year. 25½ miles of the revised ghat reserve boundary has been defined by a narrow line and cairns of stones. 25 miles of cardamom mallé boundaries have been defined in a similar manner.

119. The ghat reserve line should be completed during the current year.

120. A Forest Settlement-Officer, Mr. Dinshaw, the Commissioner's Head Sheristadar, was appointed from 22nd September 1891 and worked till the 2nd February 1892. His appointment was at first sanctioned for 3 months only, but it was continued for six weeks as it was found impossible to finish the work by the first date of expiry of appointment. Mr. Dinshaw completed the work of settlement only leaving one case, in which he was personally interested and was therefore incompetent to decide. This has since been settled.

121. The cost of Mr. Dinshaw's deputation has been,

Pay of Settlement Officer and establishment	1,186	2	7
Travelling allowance of same...	706	14	8
Contingencies	130	4	0
Total.....	2,023	5	3

122. *Surveys.*—The survey has been at work in the forests during the whole year under report. The work done as reported by the Deputy Superintendent is as follows:—

	Acres.	Equivalent in square miles.
Ghât Forests surveyed	1,68,342	263·03
Cardamom mallés surveyed and included in above area	74,170	115·89
Plantations surveyed	258	0·40
Total	2,42,770	379·32

123. In addition to this 4,055·40, acres of Devamachi were surveyed and marked off for extension of coffee cultivation. A good deal of mapping was also done.

124. The cost of the survey during the year under report has been Rs. 9,970—8—5 which gives an average of Rs. 25—13—7 per square mile, but if the total cost of the survey up to date, including last year's charges, be taken into consideration we find :—

	Acres.		Square miles
Area surveyed ..	2,77,208		433·14
Cost .		12,408 5 3	
Average per square mile . .	Rs	28 10 4	

These figures speak for themselves.

125. *Working Plans.*—No new working plans were prepared but that for North Dubare submitted in 1890—91 was revised and sanctioned. Fresh data are being collected in Anekadu and Attur and plans will probably be submitted during the current year. The provisions of the North Dubare working plan were adhered to but as the fellings in the middle circle of the Nalkeri Forest had gone ahead of the working plan, all cutting has been stopped for two years. Next year will see the working plan in operation again.

126. *Establishment.*—Mr. Mckee, Deputy Conservator, Officiating 1st grade held charge of the Coorg Forests up to 13th August 1891 from which date till end of the year under report, Mr. Foster, Deputy Conservator, Officiating 2nd grade, has held the charge.

127. An extra Assistant Conservator was promised as long ago as July 1891 but owing to there being no available officer in the Central Provinces or Berar, no one was appointed. Subsequent to close of year, a passed student of Dehra, at present a Ranger in Madras, has been selected, but he has not yet arrived though his services are much needed.

128 No other change has taken place in the strength of the staff. 38 men were punished in 1891—92 as compared with a like number in 1890—91. This is a rather high figure and is due to the exceedingly bad class of men we have in the lower grades, 22 men died, resigned or deserted. These figures are not available for 1890—91. Three Foresters were dismissed—one for trading in timber without permission and the two others for dishonesty. One Forester committed suicide.

129. *Forest Offences.*—The number of offences reported was 30 against 13 in 1890—91. The increase is due, I believe, to greater activity on the part of the staff. Of the cases reported, 18 were prosecuted against 6 in 1890—91. Convictions were obtained in 13 cases, while in 1890—91, 5 cases were successfully instituted. The percentages, are 72 and 83 respectively, but these figures are not worth much when so few cases are in question. The smaller amount of success in 1891—92, is probably due to ignorance on the part of the prosecuting officers of the proper conduct of cases. 21 persons were convicted in 1891—92 while 7 only were similarly treated in 1890—91. 2,843 cattle were impounded in 1891—92 for illicit grazing, as against 2,327 in the previous year. Here again the Deputy Conservator thinks the staff have shown increased vigilance. Strange to say this class of offence has not been shown as a forest offence in Coorg up to the present. Nor have forest fires.

130. *Fire Protection.*—During 1891—92, the area attempted was 1,30,719 acres, that in 1891—92 being 1,30,649, the increase being due to extension of Kutompole teak plantation by 60 acres and the Merkara firewood plantation by 10 acres. The area successfully protected was 1,14,445 against 1,02,165, fires extending over 16,274 acres in the year under report as compared with 28,484 acres in 1890—91. There were 34 fires in 1891—92 and 63 in the previous year. The cost of protection per acre saved in 1891—92 was 8·87 pies against 8½ in 1890—91. This somewhat anomalous fact is due to the special expenditure incurred during the year under report in widening the firelines and bringing them into a condition similar to those in the Central Provinces. This special expenditure is continuing in 1892—93 but should cease by its close.

131. The results are still very unsatisfactory but the following classification of fires arrived at by careful local enquiry will show that the establishment and the imperfect method of fire protection are answerable for a large proportion of failures.

Class of fire	No. of fires.	Area burnt in acres.
Unburnt lines and carelessness of Forest Officials ...	... 11	5,586
Passers by	... 9	1,166
Incendiary but not considered wilful	... 6	5,212
Wilful incendiarism	... 7	4,307
Accident	... 1	3

132. *Grazing and Fencing.*—The number of cattle grazed during the year was 15,802, while 13,285 grazed in 1890—91. The number registered as grazing by right was the same both years viz., 9,643 leaving 6,159 head grazed on payment during the year under report against 3,642 in 1890—91. The Deputy Conservator states that he is not prepared to give a reason for this somewhat considerable increase.

133. *Natural Re-production.*—Natural re-production is extremely poor in South Coorg where many young seedlings are choked by grass and *helieteres* but extensive efforts are being made during the current year to open out young teak. In the Anekadu, Attur, Dubare, Yedavanad and Jainkall Forests teak re-produces itself where it can be saved from cattle.

134. *Artificial Re-production.*—During the year under report the following additions were made to the area under artificial treatment for re-production :—

		Acres.
Regular teak plantations—Kutompole		60
Regular sandal plantations—Gangawara	25	
Hurlikal	25	50
Regular firewood plantations—Merkara		28
Total regular plantations.....		138
Sandal cultural operations—Bikkihari	30	
Bageri	30	60

135. Besides the above 7,700 teak were planted out in North Dubare in the previous year's coupe and 15 acres of kumri were planted up with teak in the Mawukal Forest. Extensive supplies were put in in all the sandal plantations of previous years. The cost of the various operations has been :—

		Per acre.
Regular teak plantations	Rs.	32 13 11
„ sandal „	„	20 6 10
„ firewood „	„	21 4 2
Sandal cultural operations	„	0 15 0

136. These figures, except those for the sandal cultural operations, compare very unfavorably with those for 1890—91, and a close enquiry is being made into the cause of the increased cost which mostly took place in the preparatory clearings for the 1891—92 extensions and which expenditure was incurred in 1890—91.

137. The area of the plantations, &c., now is :—

	Acres.
Regular teak plantations	... 980
„ sandal „	... 525
„ firewood „	... 180
Cultural operations (teak)	... 40
„ „ (sandal)...	... 85

138. The teak plantation in Kutompole has not been successful. The sandal in Gangawara has succeeded; that in Hurlikal has proved a failure. In the other plantations, the previous year's plantations suffered much from want of rain in the last quarter of 1891. The sandal cultural operations are a fair success but the teak kumri is a total failure and unfortunately the area planted out with teak in Dubare was burnt over.

139. *Cutting of Climbers.*—Climbers were cut in 6,165 acres at a cost of Rs. 383—8—4 and 2,253 young teak opened out and encouraged without any special expenditure.

140. *Roads and Buildings.*—No important roads were opened out nor buildings erected during the year under report but existing roads were repaired and buildings maintained. Two wells were sunk, one at Karmad and the other at Kalhalla, both in South Coorg.

141. *Yield and Working.*—The yield by departmental operations in 1891-92 as compared with that in 1890—91 is shown in the following figures:—

		1890—91.	1891—92.
Timber	... c.ft.	6,331	72,352
Sandalwood	... tons.	142	175½
Bamboos	... No.	11,880	7,525

142. The small quantity of timber extracted in 1890—91 is due to the stoppage of fellings to enable the staff to check the stock lying in the forest. The felling of bamboos departmentally was stopped during the year as it was not found to pay. During the year, a discrepancy of 43,979 cubic feet of timber was written off from the stock books as lost.

143. The idea of a depôt at Antarsante has been definitely abandoned, the Coorg Forest Department not being prepared to undertake the precautionary measures required in transporting timber, through the Mysore Forests, by the Mysore Government.

144. Seventy three thousand and five hundred cubic feet of timber were sold from sale depôts in 1891—92 against 55,871 in 1890—91. The average selling rates per cubic foot for the two years are as follows:—

	Teak.	Honne	Beeti.	Other wood
1890—91 ...	0 10 11	0 10 3	not known	0 6 7
1891—92 ...	0 12 11	0 9 3	0 10 1	0 6 9

145. The increase in quantity sold and price of teak is due to a brisker demand and this again is the result of conditions beyond the control of the department. It is believed the relief works in Mysore account for the larger sales.

146. The cost of collecting sandalwood was reduced from Rs. 37 per ton to Rs. 35—2—0 per ton and it is expected the expenditure will be much less in the current year as rates have been materially lowered.

147. Purchasers removed 5,08,487 cubic feet of timber from paisaries and other protected forests in the year under report, as compared with 3,01,160 cubic feet in 1890—91, but the method of calculating the outturn is faulty and much reliance cannot be placed on these figures. 4,75,587 bamboos were removed from the same forests in 1891—92, while 4,70,063 were taken out in 1890—91.

148. *Free Grants.*—Fifty six trees, 68 poles and 2,625 bamboos were granted free of charge.

149. *Waste Land Sales.*—Rupees 11,663—1—0 were collected as value of timber on 470 acres of land sold under waste land rules, encroached upon or given as building sites.

150. *Cardamom Mallès.*—No new mallès were leased. Rs. 7,941—13—2 rent were remitted by the Chief Commissioner on the grounds of the poverty of the lessees. The outstanding demand at close of 1891—92 was Rs. 20,509—3—10 against Rs 32,619 at end of 1890—91.

151. *Financial Results.*—The year under report has seen the largest gross revenue and largest surplus known in Coorg. Compared with 1890—91, the figures are:—

	1890—91.						1891—92.					
Receipts	...	...	...	1,35,561	2	8	...	...	...	1,82,897	0	7
Expenditure ... ... A ...	36,675	4	0	...	...	...	53,736	10	9			
B ...	29,142	11	2	65,817	15	2	33,123	8	1	86,860	2	10
Surplus.....	...	...	...	69,743	3	6	...	...	...	96,036	13	9

152. The heads under which the increase in receipts is marked are under timber removed by department agency which brought Rs. 52,495—11—1, against Rs. 37,459—5—5 in 1890—91, owing to larger demand and better prices. Sandal-wood in which the figures are Rs. 68,707—15—0 and Rs. 52,883—2—5 respectively for the same reasons, and cardamoms which in 1891—92 yielded Rs. 29,811—5—9 while they brought in Rs. 14,847—3—0 only in 1890—91. The increase under this head is due to the energetic collection of arrears by the revenue department.

153. In expenditure under timber brought to depôt by government agency, a sum of Rs. 16,608—3—2 was spent in 1891—92 against Rs. 11,099—11—5 in the previous year. More timber was brought in. Under buildings the year under report shows Rs. 2,873—0—10 spent against Rs. 1,062—7—7 in 1890—91. For this extra money, all the houses in existence were repaired and a sum of Rs. 1,429 spent on purchase of tiles. Demarcation cost Rs. 4,127—12—9 in 1891—92 against Rs. 2,668—10—8 in 1890—91 owing to the cost of a Forest Settlement Officer having to be met. Surveys show a sum of Rs. 9,970—8—5 spent in 1891—92 while the expenditure under this head in 1890—91 was Rs. 2,437—12—10. Under establishments the maximum sanctioned pay was more nearly approximated and travelling allowances came to more owing to the Deputy Conservator of Forest being more on tour.

POST OFFICE AND TELEGRAPH.

173. During the year, there were 3 District Sub-offices, 15 Branch Post offices, 18 village circles, 4 letter box stations, 4 Mail lines and 5 Branch lines. There was a slight change in the District Post Establishment during the year. The Post office at Pollibetta was taken on the Imperial strength from the 1st December 1891, and the Branch office at Madenad was closed from 1st January 1892.

174. The receipts from sale of postage labels amounted to Rs. 30,949—8—0 of which Rs. 23,626—7—0 were from ordinary labels and Rs. 7,323—1—0 from service labels.

175. The total amount debited to Post office was Rs. 10,764—13—3. The charge debitable to District Post amounted to Rs. 8,538—1—0.

176. There was no change in the Telegraph Department during the year. The number of offices in Coorg was 5, the mileage of the Telegraph lines 35 and that of the wires 59·5 as in the previous year.

177. The number of telegrams despatched was 5,065 or 452 more than in 1890—91, the Indian share of collections thereon being Rs. 5,544—14—6. The amount actually credited on account of telegraph receipts during the year was 710—8—0 against Rs. 359 in the year previous.

IRRIGATION.

178. The Executive Engineer, by the Chief Commissioner's orders, inspected the Lakshmanthirtha river with a view to finding a place to put a dam across it, from which, water might be taken to irrigate the valuable rice fields in Kiggatnad, to which, though the soil is good, remission has often to be given owing to failure of the rains, although the river runs right through them. The Executive Engineer, however, reported that owing to the difficulty in obtaining a good site for the dam, an irrigation work across the Lakshmanthirtha is not likely to be remunerative, and the project dropped. I regret therefore that I am unable to report any progress under this head, although in parts of Coorg more attention to irrigation than has hitherto been paid is badly wanted.

V. REVENUE AND FINANCE.

A. IMPERIAL REVENUE AND FINANCE.

179. The total demand for the year under report was Rs. 8,77,027—4—2 as compared with Rs. 8,42,626—9—6 in the year previous. The most important increases and decreases are :—

180. *Land Revenue.*—Under ordinary land revenue there has been a decrease; the largest amount being Rs. 11,639—7—4 under coffee assessment. There, however, is only a small decrease in the regular demand; the decrease being in such necessarily fluctuating items as 'assessment on concealed cultivation, &c.,' as shown below :—

Details.	Demand for 1890—91.			Demand for 1891—92.			Decrease.		
1. Regular demand	1,42,274	14	1	1,40,705	12	2	1,569	1	11
2. Arrears of assessment on concealed cultivation brought to book	10,338	7	11	3,878	0	11	6,460	7	0
3. Difference of assessment on estimated and surveyed area	4,014	7	11	404	9	6	3,609	14	5
Total	1,56,627	13	11	1,14,988	6	7	11,639	7	4

181. Under casual land revenue, there has been an increase of Rs. 2,671-0-5 chiefly from the sale of waste lands.

182. *Forests.*—The demand under this head stood at Rs. 1,25,706—4—6, an increase of Rs. 19,698—11—7. The items of increase are :—

Sale of timber on waste lands	1,187	12	2
Collections by Forest department ...	18,444	2	3

the latter item includes the sale proceeds of sandalwood which during the year, amounted to Rs. 63,616—4—4 as compared with Rs. 52,139—10—5 for 1890—91.

183. *Excise.*—The demand under excise was Rs. 2,31,097—3—8 as compared with Rs. 2,02,498—7—6 or an increase of Rs. 28,598—12—2.

184. The new contract for the sale and manufacture of arrack commenced to run from the beginning of the official year and the increase is almost entirely due to the high amount tendered for it, which was offered by the contractors who last held the contract.

185. There was a decrease of Rs. 1,359—12—0 under rent of toddy trees. This falling off was caused by the depression which existed in the province when these rents were formed owing to the bad coffee crop of 1890—91.

186. *Miscellaneous Revenue.*—Under this head the demand fell from Rs. 1,71,407—11—0 to Rs. 1,66,848—8—0 which was nearly the same as the demand for 1889—90 Rs. 1,63,050. The falling off was almost entirely in stamps *viz.*, Rs. 7,564—8—0.

187. There is again a decrease of Rs. 938—5—2 under Income Tax explained by the Collector as being due to the improvement in trade caused by the better coffee crop and higher prices of coffee commencing too late in the year to affect the incomes of traders in the year under report.

188. The decrease of Rs. 837—4—6 under interest is due to there being now very little of the money lent under the Loans Act now outstanding.

189. There are increases under Registration Rs. 328—5—7, Law and Justice Rs. 1,926—14—3, Jails Rs. 707—1—4 and Telegraphs Rs. 351—8—0 which call for no remark.

190. There is also an increase under Post office of Rs. 1,744—9—3; the receipts under this head rose from Rs. 29,204—14—9 to Rs.30,949—8—0 as follows :—

	1890—91.			1891—92		
Sale of ordinary stamps ..	22,688	4	9	23,626	7	0
service „ ..	6,516	10	0	7,323	1	0
	29,204	14	9	30,949	8	0

191. *Outstanding Balances.*—The balance outstanding under all heads at the close of March 1891 was Rs. 2,87,089—3—8.

192. The demand for 1891—92 amounted to Rs. 8,77,027—4—2 making the total amount for collection Rs. 11,64,116—7—10.

193. The collections (which include Rs. 668—2—8 received in advance of the demand for 1892—93 under the head Abkari) amounted to Rs. 9,19,303—1—9; to this sum should be added Rs. 233 credited in 1890—91 in advance of the demand for this year and the remissions sanctioned by the Chief Commissioner during the year and struck off the accounts, *viz.*, Rs. 20,597—14—11. The amount therefore collected or adjusted during the year was Rs. 9,39,464—14—0, leaving an outstanding balance of Rs. 2,24,651-9-10 on 31st March 1892.

194. This balance includes the two monthly instalments of land revenue payable after the close of the official year and was reduced by the 1st July 1892 to Rs. 85,308—13—5.

195. *Net Surplus Revenue.*—The gross receipts on account of Imperial revenue amounted to Rs. 9,21,856—14—8 as compared with Rs. 8,15,988—15—10 in 1890—91. The increase is chiefly due to collections under Land Revenue, Forests and Abkari.

196. The net receipts after deducting refunds and charges against income amounting to Rs. 2,91,894—3—9 aggregate Rs. 6,29,962—10—11.

197. The expenditure charged against net income was Rs. 3,46,203—4—1 leaving a surplus of Rs. 2,83,759—6—10 as compared with Rs. 2,18,303—12—9 in 1890—91.

198. *Cash Transactions.*—At the close of 1890—91 the cash balance at the Coorg treasuries stood at Rs. 4,65,276—5—7. The net revenue collected, including items of local revenue amounted to Rs. 7,12,694—3—0.

199. The revenue received but paid away amounted to Rs. 2,93,566—11—3 and the deposits to Rs. 1,16,575—2—8.

200. Deposits of bills drawn on other treasuries amounted to Rs. 2,61,938-12-7, of which the sum of Rs. 2,27,315—2—6 represents receipts of the Postal Department on account of money orders, Savings bank, bearing charges, &c.

201. Remittances from other treasuries amounted to Rs. 1,06,500 and consisted of Rs. 60,000 in silver and Rs. 46,500 in copper.

202. These sums with the refunds made during the year bring up the total transactions of the Coorg treasuries to Rs. 19,61,909—14—7 as compared with Rs. 17,17,541—7—11 in the previous year.

203. The disbursements which include a remittance of Rs. 7,59,321—14—9 in currency notes to Madras, Rs. 3,150—4—0 advances, Rs. 1,12,619—11—11 re-payments of deposits, Rs. 3,937—15—7 interest on Government securities and Rs. 2,558—2—4 on account of bills of other treasuries paid, leave a cash balance at the close of the year of Rs. 3,82,444—9—6.

REVENUE AND FINANCE OTHER THAN IMPERIAL.

204. *District Funds.*—The revenue balance of District Funds outstanding at the beginning of the year was Rs. 47—14—0.

205. The demand amounted to Rs. 29,235—5—4 and the collections to Rs. 31,472—14—1 which includes Rs. 3,823—8—0 collected in advance of the demand of 1892—93.

206. Credit has been afforded to the sum of Rs. 1,345—15—7 realized in 1890—91 in advance of the demand for this year. The outstanding balance at the close of the year was therefore Rs. 287—13—8.

207. The following items compose the demand :—

	Rs.	A.	P.

Somiah towards the Merkara water works and to the collection of old outstandings in the Merkara municipality.

210. The aggregate expenditure amounted to Rs. 26,021—3—2 as against Rs. 24,703—13—1 in the previous year.

European and bazar medicines	1,638
Dieting	1,874

217. *Merkara Dispensary.*—The total number of patients treated (both in and out door patients) was 11,183 or 1,754 more than that of the preceding year.

218. The total expenditure during the year was Rs. 14,818—13—10 as compared with Rs. 5,108—8—5 in 1890—91. The increase is due to the pay, &c., of the Civil Surgeon having been included this year for the first time. The invested capital of the dispensary continued to be Rs. 3,000.

219. *Virajendrapet Dispensary.*—The total number of patients treated was 6,271 as compared with 6,298 being 27 less than last year.

220. The expenditure amounted to Rs. 3,354—2—4 or Rs. 1,525—8—10 less than in 1890—91. The decrease is due to the value of medicines, &c., supplied during the year not having been adjusted pending instructions from the Comptroller, India Treasuries.

221. *Napoklu Dispensary.*—The number of out-door patients treated was 2,534 against 3,390 in 1890—91.

222. The expenditure was Rs. 807—7—5 or Rs. 47—4—3 less than last year.

SANITATION.

225. The introduction of the Central Provinces Village Sanitation Act to Coorg, contemplated last year, was not made, its provisions having been found inapplicable to the scattered farm houses which generally form a village in Coorg. But careful inspections were made by the Civil Surgeon, and everything that could be done by the Revenue authorities to carry out his recommendations, was done.

VACCINATION.

226. The number of cases vaccinated during the year (excluding dispensary vaccinations) was 10,430 being an increase of 2,778 cases over that of the previous year. The average number of cases vaccinated by each government vaccinator was 1,398·28 and by each municipal vaccinator 321·00.

227. Of the total number of cases vaccinated *viz.*, 11,269 inclusive of dispensary and re-vaccinations, 4,477 cases were vaccinated with calf-lymph and 6,792 with human lymph. Of the former, 1,257 cases and of the latter 6,027 cases were successful.

228. The number of primary vaccinations included in the above was 10,091, of which 9,400 or 93·15 per cent were successful. The number of re-vaccination cases was 339, and 303 or 89·38 per cent of which were successful. The percentage of successful primary vaccinations was slightly less (0·49) than the previous year, and the re-vaccinations also show a decreased ratio of 2·92 per cent of successful cases.

229. The total number of cases of dispensary vaccinations was 839 against 585 in 1890—91 showing an increase of 254 cases. Out of 661 primary vaccinations, 485 or 73·37 per cent were successful and of 178 re-vaccinations, 96 or 53 93 per cent were successful.

230. 54·31 per mille of the total population were protected by vaccination as compared with 40·18 in the previous year showing an increase of 14·13 per mille.

231. There has been a slight change in the establishment. The estate vaccinators' services were dispensed with from the 16th June, and the pay of the Inspector has been raised from Rs. 25 to 40.

232. The cost amounted to Rs. 2,156—5—1 exclusive of Rs. 375—5—9 contributed by the municipalities.

There were 57 of these schools in operation at the close of the year. The average attendance in each rose from 52 to 54, while the average gross cost of educating each pupil fell from Rs. 2—15—6 to Rs. 2—14—9.
